Strengthening of master curricula in water resources management
for the Western Balkans HEIs and stakeholders

SWARM COURSE DESCRIPTION

with special reference to learning outcomes

Course description:

Course objective

The students will be introduced with the basic elements of the natural and social environment and the way they affect the water system, as well as getting acquainted with the water management system and its operations.

Learning outcomes

The student should: understand the water system and put emphasis on significance of his work in it, analyze possible mechanisms of water management and apply strategic documents and recommendations in water resources management.

Problems encountered during the realization of course

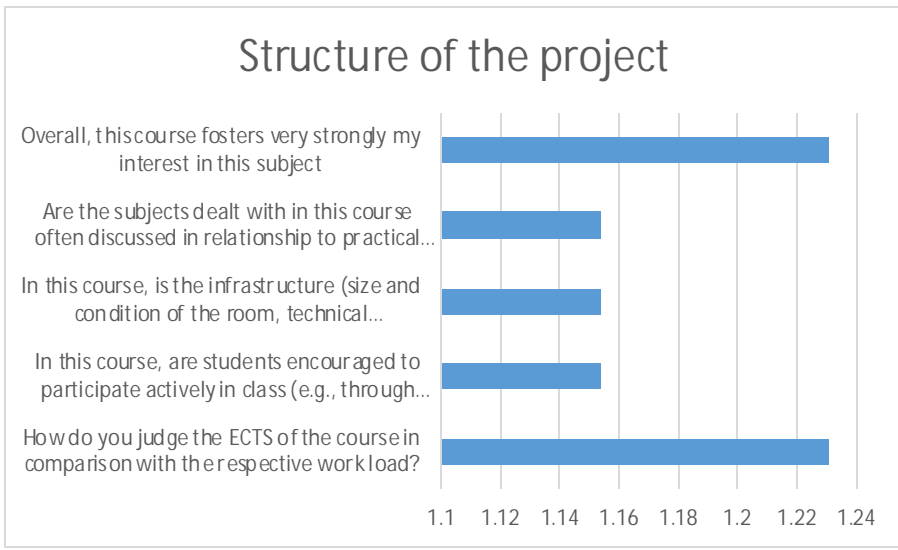

Please add your comments, if any:

Evaluation details

Results of general evaluation of implemented course

Description					
Table/Figure					
General evaluation of implemented course					
Grading	Strongly agree	Agree	Neutral	Disagree	Strongly disagree
How do you judge the ECTS of the course in comparison with the respective work load?	10	3	0	0	0
In this course, are students encouraged to participate actively in class (e.g., through group work, as well as self-regulated, problem-oriented learning)?	11	2	0	0	0
In this course, is the infrastructure (size and condition of the room, technical equipment) is very good?	11	2	0	0	0
Are the subjects dealt with in this course often discussed in relationship to practical examples (relevance to practice)?	11	2	0	0	0
Overall, this course fosters very strongly my interest in this subject	10	3	0	0	0
